# Southwestern Shipbuilding San Pedro Plant Purchased, Says Official; Denied Here

SAN FRANCISCO, Nov. 23 .- The Bethlehem Shipbuilding Corporation has purchased the Southwestern Shipbuilding Company's plant at San Pedro, according to Joseph J. Tynan, vice-president and general manager of the corporation on the Pacific Coast, today.

Although it had been previously reported that such a purchase was contemplated, the vice-president's announcement was declared to be the first official expression in connection with the deal. The transfer is said to involve \$2,000,000.

Mr. Tynan, making the statement here upon his return from the East, said the Bethlehem corporation proposes rebuilding the Southwestern plant and also will build dry docks at the southern port.

Officials of the Southwestern Shipbuilding Company last night denied that the local plant had been sold to the Bethlehem Shipbuilding Corporation. J. A. Talbot, general manager of the company, said he could not explain the announcement of Joseph J. Tynan, vice-president of the Bethlehem, as reported from San Francisco. He declared the deal was still pending, as it has been for some months, as far as he or Marco H. Hellman, president of the company, had been advised.

According to evidence adduced, Miss Raphe was hysterical, showed evidences of intoxication, and was given a cold bath on the occasion of the party.

Under cross-examination Dr. Collins admitted that he had never attended a patient suffering from a rupture of the bladder caused spontaneously. Such injuries occurred more frequently in males than in females, he said, the ratio being about ten to one. In any event they are rare, he said.

He read medical history on specifier ruptures of the type covered by the Arbuckle case, but admitted that he did not know of his own knowledge whether the accounts were accurate or not. He recited the history of one clinic that attended in Vienna, however, in which a bladder spontaneously ruptured was introduced and examined. It Offers No Challenge League of Nations.

World's Desire is Centered on Conference.

Homer S. Cummings, former chair-nan of the Democratic National man of the Democratio National Committee, in an address before the Woodrow Wilson Club at the Harvard Union last night, characterised the armament conference at Washington, as a "political expedient, designed to meet existing conditions without offending partisan susceptibilities or provincial prefudices."

HEARTENING THING. "The calling of this conference and the activities of the delegates up to the present time, is the most heartening thing that has occurred in America since the dark day when the Senate opened the debate on the terms of the Versailles Treaty,"

the terms of the Versailles Treaty," he continued.

The general acclaim which has been accorded the disarmament program is clearly indicative of an already greatly changed popular viewpoint. Freed from the exigencies of politics, and relieved of the bedevilments of partisanship, the better spirit of our country again manifests itself. The world's desire is contared upon the present conference. Uncounted millions of watchers in every land follow its deliberations with renewed hope.

FORD HOPES TO OBTAIN DATA WHICH WILL CONVINCE GOVERNMENT.

DETROIT, Nov. 28. — Henry tain data to convince the Federal government that Mr. Ford's offer for the nitrate and waterpower project is liberal, it was announced at Mr. Ford's offices today.

The information followed word from Washington that the government would ask Mr. Ford to make certain modifications in his proposals, believed to involve an increase by the automobile manufacturer in the amount of money he was willing to allot for completing the construction work on the dams at Muscle Shoals.

Mr. Ford is known to believe that Muscle Shoals may be made to produce 1,000,000 horsepower and under the Ford plan this power could be made to groduce steady employment, directly and indirectly, for 1,000,000 men.

Thanksgiving and gratitude usually come from something you've got from somebody else. And believe me! I feel pretty grateful. For thousands and thousands of men in Los Angeles and neighboring towns have given ear to the "Tale of a Cont" and have bought me. And I give thanks to all that gave me a chance to got on their backs; because that's where I belong. My light is hidden under a bushel when I'm just waiting in a clothing cabinet for somebody to spot up my beauty and my style. And I long to get out and let the world see me in all my glory! For, while I was on a sheep's back, I had a whale of a time in the air and the sumshine. And maturally, I long to get back to old times. And the nearest to those old times is on your back. See me tomorrow. Yours Thanksgivingly "The Overcont."

## TNDEPENDENT FOOTBALL FLOURISHING THIS YEAR. CHAFFEY.

Wins Championship of Huge Crowds Witness Every Contest; No Attempt Made to Lure College Lads from Teams.

BY ROBERT W. (TINY) MAXWELL. [EXCLUSIVE DISPATCH.]

PHILADELPHIA, Nov. 23. - Independent football is flourishing this year. Huge crowds witness every contest, the teams have large and enthusiastic followings and the games furnish as many thrills as collegiate conflicts. In the Middle West a dozen or more teams are playing every week and the games have been so satisfactory that the season will be exended throughout the month of December. This is a very good plan because there will be no competition from the college teams and the gridiron fans will have an opportunity to

compare the playing with that of the college athletes. One of the reasons for the success of the independent game —
and it is an important one — is
that no effort is being made to
lure college players away from
luce college players away from
toes.

SOME TEAM.

The Submarine Base team has a long string of victories to its credit, having waited through the fleet teams without even being hesitated. The team walloped Occidental and lost to the U.S.C. team by a very close score. Redlands finished second in the conference and the football fans have a fine days' stay.

LAST GAME.

This will be the last game of the season for the Buildogs and Daniels is anxious to close it up with a victory. The team has lost but one game, that by one touchdown and a safety to Whittier and that was early in the season.

Daniels, who is one of the owners of the Eartlett Camp in Big Bear Valley, will take his men to the camp on Friday for a three-days' stay.

CONVICT'S STORY.

that the Universal Film Manufacturing Company has felt importance as well as pro

made a special study of the men about him, of their wasted lives, their ways, their philosophies and their petty prejudices.

Just as it happens, Eytinge has had the luck to seil the first story he sa submitted. He has been working for many months past at writing, and is completing the fourteenth year of his life sentence.

Sixteen years ago Louis Eytinge, scion of a good family and a man of the world, was sent to the peal-tentiary on a charge of forgety. Never very strong, he contracted tuberculosis, and his sentence was shortened to two years. His family sent him to Arisons for recover his health. A year later he came acrops a finan he had known as a pal behind the bleak walls of the Ohlo prison. They revived their friendship. Then one day the body of the pal was found by cattlemen, and Eytinge was convicted on circumstantial evidence of having slain him.

The convict during the years of his imprisonment has done every sort of work. But writing appealed to him, and after several months had work he wrote "Peter Man."

The story is to serve as a vehicle for fierbert Rawlinson, and so good a story is it considered by Lucien Hubbard, scenario editor, that it will be produced as a special production.

TOM MIX MIXES IN

TOM MIX MIXES IN

ON PEPPY STUNTS.

Nobody calls Tom Mix by the high-brow term "artist." and probably nobody in the world would be any, more astonished than Mix himself to be so tagged. The term artist is so hard to define, anyway. And maybe after all, the old fans would stay away if you called him that. But Mix has certainly created a new screen ideal with his clever characterizations, bordering on good-natured burlesque, or perhaps even satirs.

In "A Rough Diamond," he is the ladding the content of the content of the content of the content of the presented by ready the cramp on good-natured burlesque, or perhaps even satirs.

In "A Rough Diamond," he is the content of the content

ated a new screen ideal with his clever characterizations, bordering on good-natured burlesque, or perhaps even satire.

In "A Rough Diamond." he is packing them in at the Symphony this week, and rightly. Everybody who sees the picture is having a thoroughly good time.

It's about a wild young cowboy who joins a circus, but fails in love with a girl outside the "magic ring," fights a mob, and becomes the comic-opera general of a comic-opera republic belonging to the girl's pa.

It's the Mix stunts that count, along with some amusing gags. Dolled up in his uniform he goes to bed in his boota, as the general, with Mis horse sleeping on the floor, with his head on a pillow.

He leaps from the end of a wharf a-horseback. And there are other amusing bits that have to be seen to be appreciated.

At the end he is proclaimed general of the comic opera country and admiral of the may. He has a vision of himself as he had been, hopelessly seasick, and this gets over for a big laugh.

Eva Novak is delightful as the heroine, and Hector Sorno makes a nice president of the comic opera mouthly and admiral of the comic opera republic.

As though this were not enough joy for one program, Al St. John is the star of a very funny comedy. "The Happy Pest." which has as its big punch a very funny and also a thrilling burlesque of "Way Down East." in which St. Joht tumbling over the falls, climbs up them hand-over-hand, nausing midway to light a cigarette!

Take it all in all, if you would have a thoroughly enjoyable evening. take in the Tom Mix-Al St. John combination show.

A REMARKABLE RECOVERY—READ HER SIGNED STATEMENT

Physical Educator.

Mrs. Bousall was stricken with paralysis over four years ago. Think of an arm entirely bereft of lon, drawn tightly to the side of her body, and remaining in this position for a period of four s, without even the slightest motion of her fingers. Now, after five months of instruction under Berry's guidance, she has regained the entire motion of her fingers, wrist, elbow and shoulder. Mrs. Bousall's left leg was partially affected as a result of paralysis necessitating the use a cane. Today she walks unaided, and without a cane.

MRS. BONSALL'S STATEMENT

Four years ago I had a stroke of paralysis. The medical men gave me no hope, expressing the belief that my condition would be permanent. Aftetr trying first one thing and another, all to no avail. I consulted Milton H. Berry, Physical Educator. I thoroughly investigated his method and decided to place myself under his care.

At the time I began with Mr. Berry I was obliged to use a cane when walking, as one of my lower limbs was partially affected and one of my arms was absolutely useless, hanging lifeless at my side.

Today I am walking without a cane, can raise my arm to my head, motion has returned to the wrist, cibow, shoulder and to my fingers. The change wrought in my physical condition is certainly remarkable.

Others who were similarly affected as I, are attaining these same results. All of these different individuals. like myself, had believed their condition permanent. There are undoubtely many cases similarly affected and with the same beliefs as to the permanency of their condition.

I am writing this letter so that publicity many to the partial of the permanent of their condition.

I am writing this letter so that publicity may be given my case to the end that there similarly affected as I was, will at least be given the opportunity to investigate he work that this remarkable man is doing in cases of paralysis. I am sure that other individuals whom Mr. Berry has succeeded with, feel as I do.

Dear Sir:

The cure of Miss Murphy's case will go down in medical history as a wonderful achievement. I personally saw and examined this patient, and, like all other physicians who examined her, agreed that her recovery was out of the question.

Ill Health is Believed to Have Caused Act.

DEL MONTE, Nov. 28.—Suicide was accepted by the authorities as the cause of the death of C. Fred Kohl, wealthy San Francisco real ty owner and clubman, at De Monte Lodge today. Ill health caused by being wounded ten years ago by a mald in his mother's em ploy is believed to have led to his

ed at the table where he had just breakfasted, with a revolver in his hand, a builet hole through his head and the lead lodged in the wall. Kohl had been at the lodge for a month. Although he had been in poor bealth, his conversation with the waiter who served his breakfast did not indicate anything unusual in his manner. Kohl and Frank A. Miller, proprietor of the Mission Inn at Riverside, were sued for \$5000 damages in 1910 by Adele Verge, maid for Mrs. William Kohl, Kohl's mother having caused her arrest on suspicion of being insane. The suit fell through and on Juné \$, 1911, as Rohl left the courtroom, where the case had been tried, the woman shot him in the chest.

each. Herman Petri was sentenced to two months in the same jail and fined \$3500.

In his remarks preliminary to passing sentence, Judge Van Fleet asserted that building materials, the highest priced of all commodities during the war, had been the slowest to recede and that this condition affected not only New York and that "the lack of proper housing for multitudes of human beings in the large cities is traceable directly to an interlocking series of criminal conspiracies and combinations in the building trades, of which this case is typical."

Referring to practices in which the defendants had indulged—"the stop notice." "protection card." "keep off notice," blacklist and "accommodation bidding"—the court continued: "With these practices prevailing in this association and with like combinations holding a grip throughout the country on the building trades. It is not a matter for surprise that the building industry throughout the great cities has been for several years virtually at a stand-still."

were fined sums ranging from \$500 to \$5000. Eleven corporations, composing the combine, were fined \$4000 each, and six others were fined from \$500 to \$2500.

Indications were that as a result of the sentences, violators of the antitrust measure would actually serve time behind prison bars for the first time since passage of the Sherman Act.

U. S. Atty. Hayward declared that the quartet soon would be on their way to the Essex county (N. J.) jail because it would be impossible for them to appeal from the sentence after having pleaded guilty.

guilty.

"Although the Sherman antitrust law has been on the statute
books since July 2, 1896, no prison
term has ever been served," Mr.
Hayward said.

"Hitherto while criminal prescutions have been brought from
time to time, judges have been unwilling to enforce the law by prison
sentence."

Bond Owner The person who owns high-grade bonds has much to be thankful for. He can be thankful that his principal is safe, while at the same time he is reasonably certain that his securities will steadily increase in value. He can be thankful for the assurance that he will receive a definite steady income, which is practically unaffected by chance or business conditions.

If he bought his bonds from Ralph G. Wolff & Co. he can be particularly thankful, since he knows that his holdings are exactly suited to his individual requirements, and that experienced investment specialists are ever on the alert to serve him.

Anyone can become a bond owner. If you are a millionaire—you buy your bonds in \$10,000 and \$100,000 lots. If your bank roll is small, you can purchase bonds on monthly installments—\$10 down and \$10 per month.

The railroads are making headway, benefiting by more intelligent menagoment and the increased efficiency naturally resulting from surplus labor. Some of the roads are placing and have in contemplation good-sized orders for rails, equipment and rolling stock, and these purchasers are a factor of importance in the steel market, while the roads are badly in need of new supplies of various kinds. The present market for highgrade bonds is the broadest, best organized, and strongest that has developed since the World War began. This undoubtedly is accounted for by the combined effect of lower money rates and a continued diversion of capital from the usual channels of business as a result of high wages and excessive taxes.

The sharp rise in Liberty Bonds has been of immense assistance, for there are more United States government bonds in the hands of investors today than bonds of any other description. Demand for good foreign government bonds continues broad and active. Why These Four Classes of Investors Buy Bonds

When you buy bonds, your judge-ment is backed, not only by econo-mists, most of whom say that bonds are the safest form of investment,

Banks, which buy bonds because they are safe,

Insurance companies, which purchase bonds in large amounts be-

Wealthy individuals, who invest large sums in bonds because they yield a good income, and

Thousands of business men, who select bonds as the best form of investment of surplus.

Buy bonds—the years have proved them to be safe investments. Buy bonds now, before the present high yields fall to pre-war levels.

The facilities of STEPHENS & COM-PANY are at your disposal to assist you in buying bonds now.

LOSS OF REVENUE.

"The present tariff has occasioned a serious loss of revenue upon the Chinese exchequer. The item of customs duties is an important one in the budget of nearly all countries; for instance, Great Britain raises 12 per cent of its revenue from customs duties; France 15 per cent and the United States 35 per cent before the World War, but the customs revenue in the Chinese budget as it now standes becomes a comparatively insignificant factor.

"The present regime makes it difficult for the Chinese government to ask for a revision as it was shown in 1912 and in 1918.

"Even if the effective 5 per cent should be levied the revenue resulting will still be hardly adequate to meet the requirements of the Chinese government.

"After general discussion the customs tariff question was transferred to the subcommittee agreed on at the meeting held November 22, members of which were announced to be:

# Portable Model \$45

The new portable Victrola No. 50 is an instrument which reproduces faithfully the recorded art of the world's greatest singers and musicians, and is so constructed that it may be carried about with ease. It embodies many of the principles and patented features which have made the Victrola the ideal musical instrument, but as the result of its highly novel construction it is no more difficult to carry than a traveling bag. It measures 17 5-8 by 12 1-8 by 9 ins.

Despite its small proportions, this new model will play any Victor Record of either the 10 or 12-inch size.

In all the world there is no other musical instrument which can afford so great a variety of musical entertainment nor afford so much real pleasure to so many people for so little money.

## THIS CASE TOO MUCH FOR LONG.

Commissioner Quits Trying to Untangle Testimony.

Pair Accused of Getting Cash by Practicing Fraud.

Two Sought as Witnesses Are in Insane Wards.

U. S. Commissioher Long resterday tried to hear a case, and gave it up. It probably was the most obscure, tangied, noisy and mysterious case in local court annals. The only thing certain was that Porter Anderson, who Bree at the Soldiers' Home in Sawtella, and J. H. Tibbitta, a taxicab driver of Venice, were acqueed of having obtained fraudulently the sum of \$50 from Edward Spillman, also of the Home.

obtained fraudulently the sum of \$50 from Edward Spillman, also of the Home.

It was a Federal case because in the asserted fraud Mr. Tibbitts was accused of having represented himself, supported by Mr. Anderson, as a Federal prohibition agent. Mr. Spillman said he had dug up the \$50 for Mr. Anderson, who appeared to be in deep trouble over a trip with Mr. Tibbitts to San Bernardino. That occurred on October 24.

Mr. Tibbitts desied that he had represented himself as a prohibition agent.

A request was made that Mr. Anderson be put on the stand, but he could not be produced, as he is confined in an insanity ward at the Soldiers' Home.

Among the other witnesses was one Warren, and Asst. U. S. Aity. Herron suggested that he appear and testify. It was explained that he is in the Napa Insane asylum. Frank Henderson testified, but he admitted that he was too full of moonshine liquor at the time to tell just what did happen.

Mr. Tibbitts was brought beak for further examination.

"My God, that's the man who ruined my wife," he dramatically shouled, pointing to Mr. Spillman, a venerable person of more than three score and ten. Mr. Tibbitts broke down and wept as a child. He was completely distraught.

"This case is dismissed." Commissoner Long announced in great haste.

WE HAVE KNOWN

Today the American nation celebrates its most impressive ceremonial, and whether it is a feast of fat things or a dinner of herbath of fat things or a dinner of herbath in through our memories like threads of gold is tapestries fine.

Thanksgiving is the people's day and a million memories cling around this precious sacrament. The people inaugurated it on a rockbound coast. The people who gave us the day feared neither the dangers of the sea nor the hardships of the frontier. They had little material prosperity for which to be thankful, but they gave thanks for religious liberty, for their garnered harvest and for their covenant with the red man.

On Plymouth Rock the people kindled a living fire and from that day the people of America have given thanks. Every year they enumerate their new blessings. They gave thanks Every year they enumerate their new blessings. They gave thanks that Thanksgiving was possible in the peril of founding a new nation; that their statesmen solved political problems and adjusted religious difficulties. The Toleration Act taught them moderation in speech and thay protected those who believed in the Lord Jesus Christ and punished those who hisaphemed.

Every year there was a new reason for giving thanks, even in the black days when they formulated the Declaration of Rights, the trial by jury, the Constitution of the United States, the Declaration of Independence and in the triumphant hour when Betsy Ross made the American flag and the liberty bell sang a message of freedom.

They are old, old stories to us now and we rarely think of them now as we sit at meat and number our reasons for rejoicing. But there were songs of Thanksgiving when the people established an indestructible Union composed of indestructible Union composed

The day of days when our thoughts are those of home and the family circle.

Few are able to actually participate in the reunions of those nearest to them, owing to distance and the demands of the workaday world.

But remember the long distance telephone. Your separation is one of minutes, not miles.

Call up "the folks" on Thanksgiving Day. Send them your cheer and hear the familiar voices.

You never tasted Com Flakes so joyously flavored, so crispy-crunchy as Kellogg's

That's why big and little folks who know the difference insist upon KELLOGG'S! The thing to do is to make comparison—Kellogg's against any other kind of corn flakes you ever ate! If it's quality, or all-the-time crispness or delicious or appetizing flavor you want—well, just wait till you eat Kellogg's! And, what a delight to know they're never leathery!

You'll get so cheerful about Kellogg's that the day's best hours will be when it's time to sit down with the family in front of generous bowls all filled most to bursting with those big, sunny-brown Corn Flakes! Never was a better time than tomorrow

merning to prove that KELLOGG'S Corn Flakes are about the "gladdest of all good things to eat."

Intist upon KELLOGG'S—the kind in the RED and GREEN package—if you want to know how wonderfully good corn flakes can be!

d self. As I ingered one after another of articles de luxe, in that a different shop, I could not but own that quality counts in garments intime, even more than elsewhere in the wardrobe. What could confer a feeling of greater satisfaction than to wear a set of that black canton crepe with inserts of hand-turned piping, constructed lattice-wise? Not a stitch of making visible and yet so finished as to render them a genuine triumph of hand-sewing, these enticing garments are given a final cache by means of wreaths of gay colored hand-made ribbon flowers upon the breasts of the cami-coats and drawers. Of course you know that the latter have come again into their own, rivaling Teddies

Motor Association Asks Aid of State Commission.

Sixty-two Unlicensed Cars Are Enumerated.

Violation of Statute is Charged in Action.

Flollowing the announcement, made Tuesday by the Automobile Club of Southern California, of its intention to co-operate with the

interneed operators of cars are made defendants.

The protest, which prays for relief from the existing conditions brought about by unlicensed drivers and owners of cars used for transporting passengers and freight, is signed by F. D. Howell-vice-pressident of the Motor Carriers' Association. It sets forth that these unlicensed proprietions of cars and trucks are operating in direct violation of the law by failing to file schedules of transportation rates between their routs terminals with the railroad commission, in addition to violating the State statute which requires the issuance of a certificate by the commission to any carrier, declaring the same a public convenience and

No More Ice

Prigidaire, the complete home refrigerator, cools itself. It requires no ice. It removes the uncertainty of an outside ice supply. It puts a stop to the dirt and muss that the ice man brings into your immaculate kitchen.

Frigidaire maintains an atmosphere in the food com-partment at least 10 degrees colder than is possible with ice.

It freezes ice cubes for table use. It enables you to serve dainty frozen creams, ices and desserts.

Prigidaire is dependable. It is a product of The General Motors Corporation. It will probably cost you less to operate than you now pay for ice.

Let us send you a booklet which tells the story of Frigid-

aire. A request will bring it by mail. Or, you can see Frigidaire in operation at our store.

CAR DESTROYED.
[LOCAL CORRESPONDENCE.]

VENTURA, Nov. 22.—Bert Harvey, moving-picture machine operator, was driving with Miss Winnifred Hampton when something went wrong with his car.

He got out to investigate and a second later a car driven by Edward Smith of Oxnard, crashed into Harvey's machine, bruising and frightening the girl and toppling over the machine. The child had barely time to stop the car and clamber out before the fire surrounded her. Sheriff McGlinchey happened along just at the time, but the fire had made such headway that there was no chance to save the automobile.

Yesterday's total of the smaller subscriptions was \$21,000. In addition to these, a single subscription, amounting to \$30,000 was received from a Los Angeles man who is now in New York. This subscription was sent to the local committee by talegram, which contained a statement strongly indorsing the project not only as an investment, but as a clvic project, worthy of public support.

civic project, worthy of public support.

Local bond houses and investment bankers have got strongly behind the program, and are devoting their energies to bringing the campaign to a successful conclusion as soon as possible, so that word can be sent to the Bowman interests of New York, which have agreed to take the hotel under a long-term lesse, that the project has been successfully financed, and that they can proceed with the purchase of turnishings for the building. Under the terms of the lease, which has already been arranged, the Bowman interests will completely furnish the hotel, at ap estimated cost of \$1,000,000, and these furnishings will be held by the owning corporation, which is to be organized, as security for the lease. Tomorrow the campaign will be given renewed impetus.

multisyllable words so readily that Mr. Woolwine took occasion to apologize for some of his questions that he said "may appear childish." Appearing to be the youngest of the prospective jurors examined up to that time, Mrs. Perry made an attractive picture as she leaned forward in her chair in the second row of the jury box and quickly replied to the many questions.

MENTIONS MADALTINE.

Madalyms Obenchain will have with the Burch case was brought out in questions asked by Mr. Woolwine of F. E. Loucks.

The fact that the defendant may have had an accomplice who is a women would not cause you to be infusered by any false sympathy or idea of chivairy, toward her, would it?" Mr. Woolwine asked.

Determination of the prosecution to demand the death penalty for Burch was indicated again and again during the questions. Mr. Woolwine placed great emphasis on the inquiries as to whether the prospective jurors had any conceinious scruples against inflicting the extreme penalty in circumstantial evidence case.

Mrs. Obenchain was not a spectator in the court, although she appeared at the morning session while her case was continued again to follow that of Burch. She left the courtroom for the District Court of Appeal for a hearing on her petition for a writ of habeas corpus to compel her immediate release or immediate trial.

PETITION DISMISSED.

PETITION DISMISSED.

Her case there was a very brief affair. Le Compte Davis, attorney for Mrs. Obenchain, asked the court to dismiss the petition, explaining that in view of the fact that the Burch trial has been started there is nothing to be gained by his client. Favorable action by the ccurt would only lead to a reindictment of Mrs. Obenchain, which would give the State sixty days in which to try her, it was stated. The petition for the writ was dismissed.

Twenty mirutes later Mrs.

was stated. The pention for twenty was dismissed.
Twenty mirutes later Mrs.
Obenchain, in charge of Sheriff
Trager and Matron Loeb, arrived at the State offices Mr. Obenchain was with the party. Mrs. Obenchain and the party rode in the elevator to the top floor and then down again. Then Mrs. Obenchain was taken back to the County Jail.

## TO MODIFY QUARANTINE AT HARBOR

Complaints of Ship Men Bring Promise of Action From Washington.

men at Los Angeles Harbor against what they declare to be a "to strict interpretation of the quarantine laws by local quarantine authorities" has resulted in assurances from Asst. Surg.-Gen. Creel, head of the Public Health Service at Washington. that instructions will be issued modifying them. This became known at the harbor yesterday, following receipt by E. S. Zerwekh, local shipping broker, of a letter from Asst. Surg.-Gen. Creel to the effect that vessels coming direct from the East Coast without touching at a wharf or dock to transact business in the Canal Zone or any foreign port on the way around to the Pacific, need not undergo quarantine inspection before proceeding to the local wharves.

The assistant Surgeon-General's interpretation of the law, which, local shipping men say, is not in accord with the interpretation put on it by Dr. G. T. Van Voorhees, local government quarantine officer, will affect approximately aper cent of the vessels calling at the harbor.

Many complaints have been made by shipowners and cantains because every ship entering port after 5 p.m. has been required to wait until 9 am. the next day for inspection before proceeding to a wharf to unload or take on cargo. It was pointed out by the shipping men that quarantine officers at San Diego and San Francisco have not exacted this requirement from vessels coming from the East Coast direct. The cost to operators of such ships, figured in dollars and cents, has been large, it is said.

In his letter to Mr. Zerwekh the assistant Surgeon-General assured the local shipping man that such an interpretation of the law is not intended by the authorities at Washingtop and that instructions will be issued to make the quarantine rules governing the arrival of ships at Los Angeles Harbor conform with those of other Pacific Coast porta.

Dr. Van Voorhees stated last night that he has received no in men at Los Angeles Harbor against what they declare to be a "to strict

FOG CAUSES CRASH.

Blamed by Captain Run Down by Harvard.

ated by F. A. Rooth & Co. An affidavit made yesterday by Capt. Sylva of the fishing boat indicates the accident was directly due to confusion aboard the Tanowhen the Harvard approached. Capt. Sylva says he put his helm to port to avoid a crash, but that another man in the wheel house grabbed the wheel away from him and threw it to starboard. The captain then tried to speed up and get out of the way, but succeeded only in getting squarely in the Harvard's path. Saveral passengers on the Harvard stated that the accident was unavoidable on the part of the Harvard's helmsman and captain.

They were Detective Sergeants Davidson and Curtis of the University Police Station The detectives and Mr. Hamilton had a chat and then the detectives introduced themselves into Mr. Hamilton's private "are-nal." The arsenal, as was shown in the evidence taken to Central Police Station, consisted of a fifty-gallon copper still, two barrels of rye mash and about two cases of clear amber liquid locally known as "hooch." So when the detectives left Mr. Hamilton went with them. He was booked at the University Station on suspicion of having violated the Volstead Act. home at \$201 South Hoove

EXPOSITION PARK TO BAR TENNIS PLAYERS

Devotees of the game of tennis who have been accustomed to use the public courts at Exposition Park will soon be forced to seek new playgrounds, it was announced yesterday through the city's recreation bureau. The coliseum to be built at Exposition Park, for which ground will be broken soon, will occupy the present location of the tennis courts. The coliseum will, when completed, furnish Los Angeles with one of the finest stadiums in the world, according to the statement of the superintendent of playgrounds, C, W, Raitt. There's no better way of describing a particularly strong method of fasterling two things together. than to say,

When plaster is applied to a Buttonlathed wall it is fastened in ways that suggest riveting, clinching, welding, cementing and all the other well-known methods of joining two substances so they will stay joined.

That's why Buttonlathed walls are unusually substantial. That's why they last longer and look better.

That's one of the many reasons why it will pay you to build to Buttonlath specifications.
